SUMMER 2001

(CCS)
THE WORLD'S LARGEST SKATEBOARD SHOP

THE EASE OF ORDERING

The choice is yours: call 1-800-477-9283, fax 1-805-546-0330, drop your order in the mail, or buy on-line at www.ccs.com.

We accept all major credit cards, checks—even by phone, money orders, or we can ship C.O.D. All the details are inside on the order form—any questions, ask away.

CCS.COM

Our web site is backed by 15 years of experience and know-how. As we continue to deliver top quality skateboard and snowboard goods, you can expect our web site to be just as helpful and informed as our knowledgeable sales staff. **CCS.COM** is fully secure and is designed to make it as easy as possible to place orders and check stock. Click **CCS.COM**, order today and skate better tomorrow.

CONTENT SHOCK?

We do our best to try and not carry graphics and designs that may be offensive to anyone. However, skateboarding has always celebrated the individual and has supported non-mainstream ideas. Please keep this in mind when looking through the catalog. We have tried to provide many choices in each product category so you can find something appropriate for you. If you have any questions on a graphic or design, call our sales staff. We will be glad to help you.

WHY SHOULD I BUY MAILORDER?

Well, here are a few good reasons that answer the question. Unless you live in California, there's no sales tax. No hassles. No need to drive or park. It's a free phone call and it's delivered quickly to your door. Now answer this question: Could it get any easier or more convenient?

DO WE HAVE IT IN STOCK?

When placing your order, our informed sales staff will let you know when you can expect delivery. If we are out of an item and we expect to get more, we will backorder it for you and ship it automatically when it comes in — charging you only when we ship.

CUSTOMER SERVICE & SALES HOURS

For your convenience, we have extended our Customer Service Hours. Our new hours are 5 a.m. to 10 p.m. PST every day. Sales operators are now available 24 hours a day each and every day.

SHIPPING

We try very hard to ship within 48 hours of receiving your order. So for some parts of the country, if you order on Monday, you could have your new stuff by the weekend. When you place your order ask your salesperson how long it takes to your town.

SATISFIED WITH YOUR PURCHASE?

We sure hope so. If for any reason you're not, call our customer service department at 1-800-477-9283 ... we'll take care of you.

Trucks Silver \$33.98 pair, Colored \$37.98 pair (unless otherwise noted)

Trucks come in various heights and widths. Truck axle width should be closely matched to your deck width—or at least within 1/4 inch. Truck heights only differ by about 1/4 inch. If you use bigger wheels then you should either use higher trucks, risers, or both to avoid wheelbite (contact of wheel with deck).

Koston 3

Eric Koston has always been ahead of the game, just like his K3. At first glance you're like, "What the?" But look, you'll see that es and Koston have done it again. This is probably one of the cleanest shoes out. That's because lots of thought went into the design. The K3's upper is one piece of embossed full grain leather or nubuck that wraps around the entire shoe. Covering the toe is an embossed polyurethane-coated synthetic rubber toe cap which is triple stitched for durability. It has hidden nylon lace loops and nylon tongue pull, so you can slip it on like a glove. The shoe is of lightweight and supportive strobel construction. Optimizing the cush in the K3 is a combination of a lightweight polyurethane midsole and the System 02 heel cushion. The outsole is a 400 NBS zig-zag tread pattern that helps Eric do his Magic. We can't promise it will do the same for you.

Sizes 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13, 14. **#ES-W \$89.99**

Huf

Huf's very own shoe from DVS definitely has everything you'd expect from a signature model shoe. The upper is a hybrid of action leather (White/Red and White/Navy/Grey) or high abrasion nubuck with open cell breathable mesh, molded RF welding and high reflective detailing. A triple stitched toe panel and dual lacing system keep your shoe from blowing out. The Huf also comes with the DIMS (Drop in Midssole System), found only on DVS shoes. Flux

Back to the basics. Osiris hasn't forgot the basics as you can see in this newly designed shoe. The Flux has a high abrasion resistant endura coated toe cap with a 3M reflective trim. Attax

Attax! are made of synthetic nubuck or an action leather upper. Sectioned mesh on the side paneling and tongue give flexibility to the Attax. Breathable mesh has been utilized with the anti-slip heel cup, limiting heel lift and providing better ventilation. The high density padded tongue is comfortable. With a hidden stash pocket in the left shoe only, you can carry your emmm...change so you can buy a soda after a long session. An embossed polyurethane coated synthetic nubuck toe cap was used for its abrasion resistance under long wear. Full length polyurethane midsole with anti impact system in the heel area and an S-One insole provide excellent lightweight protection against heel bruising. Of course you need a Supagrip rubber outsole which can only be found on Osiris shoes.

Sizes 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13, 14.

D3

The D3 is another strong design by Osiris and Dave Mayhew. The underlay of the toe is nubuck or action leather. To reinforce durability on the toe, it was capped with a triple stitched high abrasion resistant endura thermo plastic rubber. The tongue is contour padded and super dense for max comfort. Laces are protected by a combination of PVC/TPR super loops and backup metal eyelets. A lightweight polyurethane midsole with durable heel side impact airbags keep your foot well protected. The rubber arch support and lightweight PU stabilizing midsole are perfect for long sessions on any terrain. A Supagrip rubber outsole helps Dave Mayhew stick all those tricks he has in his tech file. Sizes 3, 4, 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13, 14. #OS-F \$74.99

Datz

On the tech side, Osiris designed the Datz. The upper is constructed of soft synthetic leather. The toe cap and ollie zone are made from abrasion resistant molded Endura TP rubber. Laces are protected by internally mounted nylon lace loops. An innovative internal padded sock made of revolutionary Spenco is connected to the uniquely designed tongue. Reflective PVC on the heel also provides stability against ankle injury. A flexible and lightweight phylon midsole with an Air-Light Tunnel creates one of Osiris' most responsive and lightweight shoes. Sizes 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13, 14. **#250031 \$76.99**

Ranx

Another shoe that shows off Osiris' ability to design a more basic skateboarding shoe. The Ranx has a high abrasion resistant endura coated toe cap with a small amount of reflective trim. For superior comfort, the Ranx has a single density padded tongue. Laces are protected with an internally mounted nylon lace loop system. The inside has a team approved EVA anti-shock insole. Outside westside construction along with a duragrip rubber outsole was used for an automatic responsive fit. Sizes 3, 4, 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13, 14. **#250029 \$45.99**

A triple padded tongue with mesh and neoprene give you one of the most lavished and comfortable fits any shoe can offer. Nylon protective lace loops keep you from buying laces for awhile. And a polyurethane midsole and Supagrip rubber outsole give you perfect control of your board. D3 2001

The newly designed D3 2001 has tons of new features thanks to Osiris Technology and the new "Flip Touch System." On the upper Osiris wanted more breathability so an 8 point breath-right ventilation system was introduced. Another new feature is a smooth inner side panel padded tri-coat mesh. The outer has an embossed sonic molded 3M reflective TPVR Side/D3 Super Loop Panel. An anatomically true-fit dual density padded no-slip heel cup was introduced for a more responsive fit. Flip-Touch System internal toe box has neoprene comfort padding. The tongue is dual density and anatomically contoured. It also has PVC lace retainers that help keep the tongue contoured to the top of your foot as well as a TPR pull loop. The outsole is a new Flip-Touch System Supagrip Rubber. More new features on the D3 2001 are its full foot helium tunnel compression anti-impact system, and a Flip-Touch System molded EVA anti-shock insole. Sizes 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10, 10.5, 11, 11.5, 12, 13, 14.
